

Workshop on management of European project in the field of higher education

GEReSH-CAM and Dockside projects

INALCO and University of Nantes will organize one-day workshop on European Projects' Management in the field of Higher Education. The main goal of the event is to improve the collaboration between Cambodian and European institutions involved in the implementation of projects within the Erasmus Plus Capacity Building in the field of Higher Education. Major operational and administrative aspects of the project development will be discussed. A particular attention will be paid on the financial project management.
